October 2026

From your LDPOA President

Seasons are changing; we look forward to everyone's return. For those of you away, I hope you have enjoyed time with family, travel or just enjoying the serenity of your alternate living place. We have added multiple trees and shrubbery throughout the park. Some provide a functional purpose, and all add to the beautification of the village. Randy has been working on the mailbox stands, and I believe he is almost done. Other than that, it's been relatively quiet here. We have dissolved the Hudson Tree agreement, and the result has been increasing our storage area by about 50%. The shuffleboard canopy on the west side will be replaced when we have some of our volunteer workers back in the village this season. Our intent is to also strip and wax the main hall areas again this October. We will be looking at various infrastructure improvements to be made in 2027 - 2028. If you have concerns, we should look into, please alert the office or one of the board members. I believe the CERT Team is trying to put together some programs which might interest you so please read any correspondence to their planned events, attend if there is interest. Please let the office know when you return and update your contact information at that time. If you have not provided the office with your cell phone number, please consider it. We are trying to set up text message blasts similar to the email blasts that we feel might be more universally read in a more timely fashion. It is important that the office has a reliable way to communicate with you that you monitor frequently.

Don't hesitate to reach out to me at any time. My contact information is 239-291-8357 and my email is lloydshipley@gmail.com

From your ROLDI President

Well, summer is going out HOT! But what a great summer we've had here at Lazy Days!

We've enjoyed a few more activities than usual this year, and our holiday dinners were wonderful.

The Hillbilly Picnic was an absolute blast, with sixty-some people showing up to enjoy the fun, food, and laughter. We also tried something new this summer with our Dice Run. Everyone who participated seemed to have a great time. It's always fun to try something different, and who knows? We may have started a new tradition! Our snowbirds are slowly beginning to return, and it's wonderful to see old friendships being rekindled. The park is starting to come alive again as familiar faces make their way back home to Lazy Days. Mark your calendars for October 31st! We'll kick off our dance season with music provided by none other than Crazy Canadian Joe Joseph, and Jerry! It should be a great evening of music, dancing, and catching up with friends. Remember to keep an eye on the ROLDI Events Facebook page for activity updates. You can also find information on the signboards at both halls and in your newsletter calendar. There's always something happening, and we don't want you to miss out on the fun!

To all our snowbirds still making their way south, we look forward to welcoming you back. Travel safely, and don't take too long getting here. Your Lazy Days family is waiting for you!

Thanks to everyone who helped make this summer such a great one. We couldn't do it without our wonderful volunteers and residents.

Hope to see you all soon!

As always,

Gene Kelly, ROLDI President

From Your Park Manager

Hello Lazy Days residents,

Well, here we are waiting on the arrival of our snowbird friends and family after a hot and sticky summer without them. Activity will be ramping back up and we will all be busy getting things “back to normal” for another season of fun here in paradise!

Things at the office have been busy getting things ready for the resumption of board meetings, budget preparation, bylaw review by committee and the expected Shareholder Special Meeting scheduled for November 19th. With that in mind if you are a shareholder, please remember that the mailout goes to the address we have on file. If you have changed mailing address and not advised the office yet OR if you have returned to Lazy Days and not registered as “back on site” your information package will go to the NORTH address on file!

DO NOT TRESPASS – please be aware that the back of every home here is private property. The 10’ easement that every home in the community has, (runs at the back property line) is for access to repair/replace utilities only – it is not a right of way! When you take the liberty of walking your pet or driving your golf cart on this 20’ strip of land you are invading someone’s private property! Please do not do this. If you have lots of “stuff” in this easement like trees and sheds and patios you must be aware that they can be removed at your cost if needed and when it is an unapproved item like a shed, cabana or fence, if it ever is removed (in a storm) **YOU CANNOT REPLACE IT.**

I advise this because we are aware of a few OLD installations that were previously installed and fit these criteria **HOWEVER** any recent installations done without permission **MUST** be removed or sadly legal action will be taken. www.lazydaysvillage.com is our web page. Both shareholders and non-shareholders can log in to use this resource. Association documents, newsletters and other information are there as well as some forms. Most documents are in the public area, but some documents do require login. You can also make a payment using the Resident Portal which is convenient if you forget your check and do not want to pay a late fee! Simply register for access and once verified you will be able to log in and make a payment.

Mailboxes? With all the bases now either repaired or replaced and well over 20 new boxes installed by owners who have paid us \$25 for the service. Things look wonderful. However, there are quite a lot of mailboxes that are still not white or are very old and rusty or simply dirty. Owners will be getting notice of compliance

violation and **MUST** get their boxes into good shape over the next few weeks as per the Rules and Regs. XII. MAIL

1. Owners are to maintain their own mailboxes and posts. Mailboxes shall be white and kept clean and in good repair. LDPOA retains the right to clean up unsightly mailboxes and bill the Owner for labor and costs involved. This can include, but is not limited to, Cleaning, repainting or replacing damaged boxes.

Our summer has ended but our wonderful fall and winter have arrived! Welcome home snowbirds let’s all have a blessed season.

Jan Provence CAM CMCA Park Manager

Pet of the Month

By Gene Kelly

Meet Rudy, our 13-year-old Pet of the Month! Rudy is a Chi-Poo, a Chihuahua and Poodle mix, and his proud parents are Jimmy and Debbie Livers. Jimmy and Debbie got Rudy when he was just 6 months old, and after more than 12 years with them, Rudy has pretty much figured out how life is supposed to work.

First, every gentleman needs his own bedroom—or at least his own bed! Rudy has a cozy little bed that he sleeps in every night. He doesn't climb into Mom and Dad's bed. Apparently, Rudy believes everyone should have their own sleeping quarters! Rudy's best buddy is Cash, the dog who lives behind him. Rudy loves seeing Cash, and whenever his friend is around, Rudy is ready for a visit. He's also a big fan of golf cart rides. After all, when you're 13 years old and retired in Southwest Florida, why walk when you can ride? And then there are the treats. Rudy is what you might call a professional "treat magnet." He isn't particular about who hands them out, either. If you have a treat, Rudy is more than happy to become your new best friend! So, what does retirement look like for Rudy? A comfortable bed, golf cart rides, visits with his buddy Cash, plenty of treats, and Jimmy and Debbie waiting on him. At 13, Rudy has definitely mastered the art of retirement. We should all be so lucky!

OCTOBER

VETERAN'S CORNER

Submitted by Janet Shipley

I had the pleasure of visiting with Jim Scarpella of 825 Peaceful Drive and his wife, Shirley.

Jim is a Veteran of the U.S. Navy. He was born on June 13, 1931, to Doris and Albert Scarpella and was raised in Van Wert, Ohio. When Jim was growing up, his Stepfather was a barber so Jim decided to follow along and, upon high school graduation, he went to barber school in Toledo, Ohio. After getting his barber's license he decided to join the military. He opted against the Army and felt the Marines might be too hard so he joined the Navy in 1950 and was in during the Korean War.

After bootcamp, he was stationed on the Orion. This was the mother ship that oversaw the smaller ships and submarines. Being that he already had his barber's license, this is the job he was given to do for the 4 years he was enlisted. He would be tendered over to ships and submarines in a bucket to cut hair for his Navy brothers. His ship had everything on it that you could need including a laundry shop and a shoe shop. This ship went everywhere but in the colder months you would find it near Cuba.

Jim's discharge from the Navy was in 1954 when he moved home and got a job in a barber shop. Soon after he met his wife, Shirley, in Rockford, Ohio at a dance. He tells me that she was there with 3-4 other young ladies, but he picked her out and danced with her all night.

Shirley was beaming as he told this story and added that at the end of the first dance, Jim flipped his leg up over their arms and then did a split. He wowed her as well as the rest of the room that clapped and cheered while she looked over at her friends with a big smile. I think she knew then that she had met the man of her dreams. It wasn't long after that he got a job closer to her, and they were married (much to the dismay of the townspeople who felt it would never last!). They were married on February 4, 1956 – 70 years ago! Jim and Shirley have 3 children, 10 Grandchildren and 26 Great Grandchildren – all from a love that wasn't expected to last.

Jim continued as a barber for many years before leaving that profession and becoming a field supervisor in the tomato business. As well as supervising the workers in the field, he would travel to Texas to recruit laborers to plant and pick tomatoes. In 1995 he retired, and they

purchased their first home here on Vista Drive where they spent 5 years as snowbirds. In 2000 they sold that house and purchased their home on Peaceful and became full-time residents. Jim and Shirley were one of the original purchasers of our Lazy Days Park. He spent 8 years on the LDPOA board. While on the board he remembers receiving one letter and it was addressed to "Sarcastic Jim". Jim had a comment that really made me think. He feels that every resident in the park should be a board member at least one time to understand the decision

making and to get an idea of what it's like to try and do your best while receiving complaints and criticism.

Jim and Shirley continued the love of dance. He even taught line dancing here for 2 years. I have a feeling that ballroom dancing was right up there as a favorite as well. Shirley said now that they don't get out very often, they have been known to turn the music on in their home and dance in their living room. Keep dancing Jim and Shirley!

Health and Safety Tips

By John Moors

This month we will discuss proper storage and disposal of common chemicals like gasoline, solvents, oil-based paints and stains. All the above should be stored in their original, or approved containers. Gasoline should be stored in a metal or approved plastic container, always leaving a small air space for expansion. Solvents and oil based paints and stains should always be stored in their original, labeled containers. Do not store chemicals near an ignition source, which could be your clothes dryer or barbecue grill. Items should be stored in a well-ventilated area. Never put chemicals in the trash.

Never put rags used to wipe up spills in the trash as this may cause a chemical reaction which may lead to spontaneous combustion. To dispose of old, unwanted hazardous waste items like (gasoline, automotive oil, car batteries, oil-based paints and solvents, drain cleaners, and pesticides) in Lee County, the collection facility is located at 6441 Topaz Ct. in Fort Myers. They are open Mon.-Fri. From 7:30-4:30

There will be more information in November newsletter.

Current members are: Mike Finlayson, Tammie Hillman, Gene Kelly, Kate Moore, John Moors, Larry Murdoch, Jan Provence, Lloyd Shipley and Rich Siller.

Please reach out if you would like to join the team!

Quilting and Crafting

By Kat Newcomb

Just a quick update: The baby quilt has been finished. The ladies presented it to me at our Wreath Shop. And to say it is beautiful is a great understatement. My heart is so full of love and gratitude for these ladies. They took my 2 pieces of material and made this masterpiece. Thank you all so very much.

Shell Of The Month

By Pauline Prideaux

The boring sponge effect has several different species. The yellow boring sponge or sometimes called the sulfur sponge can be found in SWFL areas such as Sanibel, Marco and Captiva. Boring sponges usually look for heavier shells such as Whelks and Horse conchs. It seems the sponge colony finds it easiest to inhabit and excavate on these with a thicker shell. The sponge will then make small round tunnels by using an acid secretion and a mechanical chipping to enter the shell. The snail will fight back by making another layer of nacre (mother of pearl) to keep the boring sponge out. In my collection, I have a whelk, moon snail, quahog clam and center spiral of a horse conch. When you find a dead shell and it has small, tiny holes, 1-5mm, peppered all over it, then you know who had been hanging out attached to his shell at some point in time.

Ice Cream Social

By Pauline Prideaux

The village welcomed the summertime ice cream social treat. We thank Kat, Tammie, Gene, Janet, JT, Tina and Nancy for serving, set up, decorating, ice cream runner, and cleaning up. So much goes into a seemingly easy event for us villagers. Signup sheets are a vital part of this. So many ice cream choices and topping galore! Everyone seemed to enjoy visiting with their neighbors. We also got to get a second helping. Who refuses a second helping of ice cream. Lol. Lou Ann won the gift basket of goodies. Keep your eye on the calendar for the October fun.

Labor Day Potluck

By Pauline Prideaux

A room full of villagers came together on Labor to honor the day and those sacrifices of 9-11 and to the first responders that gave tirelessly. Tammie read a moving tribute and Gene added the song....."Where were you when the world stopped turning" by Alan Jackson. Many enjoyed the variety of delicious dishes along with the self-serve ice cream, brownies and cookie bar. The pork was perfect after Gene stood over its cooking process for 2 days. The door prize Kat made was won by Barb Findlayson. Hope you all enjoyed the dinner put on by Roldi. Thank you all.

Summertime Wreath Class

By Pauline Prideaux

Some of the villagers enjoyed an afternoon of wreath making. We had choices of Halloween, fall and Christmas decorations. There were plenty of decorations and ribbons to choose from with plain or painted white grapevine wreaths and lots of glue guns to put it all together. A plus to the day was tables full of snacks and sandwiches to fuel our creative minds and some liquid refreshments to confuse it all. (Lol) Kat and her great crew put it all together. If I tried to name them all I might leave someone out. Kat said there may be another craft get together in a couple months. Hope everyone enjoyed the day. Thank you

By Kat Newcomb

***Coopers Hawk Winery & Restaurant**

13671 Olympic Ct Fort Myers Fl 33912

If you're looking for a restaurant that offers something a little different, Cooper's Hawk Winery & Restaurant is worth a visit. It is a modern American restaurant with its own winery. Cooper's Hawk offers a fun dining experience for both wine lovers and those simply looking for a delicious meal. The menu has a wide variety of choices, including appetizers, salads, burgers, pasta, seafood, steaks, and specialty entrées. Many dishes include suggested wine pairings, making it easy to try something new. One of the highlights is the opportunity to enjoy a wine tasting before or after your meal. The atmosphere is upscale yet comfortable, making Cooper's Hawk a nice choice for date night, lunch with friends, birthdays, or a special evening out. You can also browse their selection of wines and gifts to take home.

Kat's Take: Great food, a wonderful selection of wines, and a lively atmosphere make Cooper's Hawk more than just dinner, it's a fun experience. If you haven't been, put this one on your restaurant list!

***Alva Diner**

If you're looking for a friendly, down-home place to enjoy a good meal, Alva Diner in Alva, Florida is worth a visit. This local diner offers the kind of relaxed, small-town atmosphere where you can sit back, enjoy your meal, and feel right at home. The menu features plenty of classic American comfort food, with breakfast favorites and hearty lunch choices. It's a great spot for a traditional diner breakfast, a satisfying sandwich or burger, or simply a casual meal with friends. One of the things that makes Alva Diner appealing is its unpretentious, hometown feel. You won't find fancy dining here—just familiar food, generous servings, and the comfortable atmosphere of a neighborhood restaurant.

Kat's Take: If your travels take you out toward Alva, stop in hungry and give this little local diner a try. Sometimes the best meals are found in those tucked-away hometown places!

Instructions

Heat your oven to 425°F and line a baking sheet with parchment paper.

Mix Dry Ingredients: Put the self-rising flour into a large bowl.

Cut in Butter: Add the cold butter. Use you a fork to mash the butter into the flour until it is coarse crumbs.

Add Peaches and Milk: Gently fold in the chopped peaches. Pour in the cold milk and stir just until the dough comes together. Do not overmix. Scoop large spoonfuls of the wet dough onto your baking sheet. Bake for 15 to 18 minutes until the tops turn golden brown

Instructions

Stupid Pie

Shared by John Finlayson

The dessert everybody in my family fights over now started as a joke because it's so ridiculous. Four ingredients, no oven, and it tastes like something a bakery would charge you fifteen dollars for.

- 20 oz can crushed pineapple
- 14 oz can sweetened condensed milk
- 9 inch graham cracker crust
- 8 oz tub of whipped topping

Instructions

Open the pineapple pour off ¼ of the juice then pour the pineapple and juice left in can into a bowl. Pineapple juice is what makes the filling silky and holds it together. Pour in a 14 oz can of sweetened condensed milk and stir till completely combined. I find it is better to use a mixer for this part. Then gently fold in the 8 oz tub of whipped topping by hand, don't use the mixer here or you'll flatten it and lose that pillowy texture. Pour the whole thing into a 9 inch graham cracker crust and smooth the top, then sprinkle a few extra graham crumbs across the surface if you have any left. Cover and refrigerate for at least 2 hours, though overnight is even better if you can wait. Slice cold straight from the fridge. It tastes like sunshine on a fork and nobody ever guesses it took 5 minutes to throw together.

Ice Cream Salad

Shared by Theresa Durst

Ingredients

- 80 Ritz Crackers crushed
- 1 ½ stick unsalted butter melted
- 2 tablespoons sugar

- 2 boxes of instant vanilla pudding
- 1 ½ cup milk
- 1/2-gallon vanilla ice cream
- 1 container of cool whip

Instructions

Mix the 80 crushed ritz crackers and melted butter press into the bottom of a 9 x 12-inch pan use ¾ of the crackers save the other ¼ of crackers for later

Start by removing your ice cream from the freezer to allow it to soften. (Do not let it melt.) Mix 2 boxes of pudding and 1 1/2 cups of milk then add ½ gallon of ice cream. Pour into pan over the crackers and place it in refrigerator (not the freezer.) After about 2 hours spread the cool whip on top and sprinkle with the remainder of crackers

“Did You Know?”

- Pumpkins are fruits, not vegetables, because they grow from flowers and contain seeds.
- Halloween is more than 2,000 years old, with roots in the ancient Celtic festival of Samhain.
- Apples float in water because roughly 25% of their volume is air.
- Bats are the only mammals capable of true sustained flight.
- Leaves change color when shorter days and cooler temperatures cause chlorophyll to break down, revealing yellows and oranges that were there all along.
- Spiders aren’t insects. They’re arachnids and have eight legs rather than six.
- Pumpkins are about 90% water.
- Owls can rotate their heads up to about 270 degrees—but they cannot turn them completely around.
- Chocolate was once used as currency by the Aztecs and other Mesoamerican peoples.
- October’s full moon is commonly called the Hunter’s Moon when it follows September’s Harvest Moon.
- Florida has more than 1,000 golf courses, among the highest totals of any U.S. state.
- An alligator can go through thousands of teeth during its lifetime as worn teeth are continually replaced.
- Florida usually doesn’t feel very “fall-like” in October! Southwest Florida’s October afternoons are often still quite warm.
- American flamingos are native to the Caribbean region, and wild flamingos have occasionally been documented in Florida
- And one just for fun: Why did the scarecrow win an award? Because he was outstanding in his field!

OCTOBER THOUGHT:

“Autumn shows us how beautiful it can be to let things go.”

Gardening Tips

In a community like we live in space for a garden is limited, and in the Florida weather, container vegetable gardening works well to have control over sun, cold, and heat. You can do group planting in your containers, especially when you group plants that like the same amount of sun, water, and fertilizer. Since the fall months are upon us, you're coming into a very good vegetable-growing season.

Here are some combinations that work nicely in one large container (10 – 20 gallons)

- Tomato + basil + green onions — One tomato in the center, basil around it, and green onions around the edge. Use at least a 15–20-gallon pot.
- Bell pepper + basil + parsley — A nice combination for a 10–15-gallon pot. One or two pepper plants, depending on pot size.
- Lettuce + spinach + radishes — Excellent for Florida's cooler fall and winter weather. Radishes grow underneath while the leafy greens fill the top.
- Broccoli + lettuce + green onions — Put one broccoli plant in the center and smaller vegetables around the outside. A 10–15-gallon pot works well.
- Carrots + radishes + green onions — Great together but use a pot that's at least 12–14 inches deep.
- Cucumber + dill + green onions — Use a large pot with a trellis so the cucumber grows upward.
- Hot pepper + cilantro + green onions — A particularly good fall combination. Cilantro does much better once Florida temperatures begin getting cooler.

For vegetables, make sure the container has plenty of drainage holes and use potting mix rather than Florida yard soil.
