FROM YOUR ROLDI PRESIDENT

Well, we got some of those April showers, didn't we? It was nice to see some of our lawns coming back, too.

We had a nice turn out for the Memorial Day Pot Luck and we will have another on July 4th. Again, the chicken will be provided by ROLDI and you bring your place settings and a dish to pass, (more if you are bringing a guest). Guests are always welcome at \$5 each.

Things are very quiet during the summer, but it is a good time to inventory our closets and do a bit of organizing. We will be cleaning out some things in the kitchen and rearranging our supply cabinet (there will be a check-out list for items stored there). If you are hosting an event please be aware if you remove items from storage they must be entered on the list so they can be replaced in a timely manner. There is nothing worse than planning an event and finding out there are no plates, table covers or utensils, etc. Likewise, if you purchase items for the cabinets, they should be entered as well.

I have revised the Street Captains listing to include the "summer replacement" people who will be delivering the newsletters while the regular street captains are away. The list is posted on the bulletin boards in each hall.

Be sure to fly your flag on June 14th to honor Flag Day.

Judy Young, President ROLDI

KARAOKE & DANCES DURING JUNE

Our maestro, Jerry Sabel, will be gone for three weeks during the month of June, therefore dances and karaoke will be on hold until he returns. At that time we will decide if there is enough interest and if so, we will post the dates in the July newsletter and on the bulletin boards.

Keep your skin healthy all year long

With summer here, you're probably wearing lighter clothing and spending more time out in the sun. That's great, but don't forget to protect your skin—not just during the summer, but all year round. The Health Site website offers these do's and don'ts for keeping your skin healthy:

• **Do** hydrate._Water is important for good health in general, and it's essential to healthy skin, helping to clean out toxins from your body and opening your pores to give skin a healthy look.

• **Don't** smoke. Smoking can accelerate your body's aging process, as well as decrease the amount of necessary vitamins and nutrients needed for healthy skin.

• **Do** wash and moisturize. Cleaning your skin in the morning and evening will remove dust and oil that clogs your pores. Use a moisturizer with an SPF of 30 or higher after washing.

• **Don't** pick at your skin. Skin oil can create pimples, but don't pick at them. That can cause them to become septic and leave marks on your body.

• <u>Do</u> use sunscreen. It's not just for going to the beach. Apply sunscreen every day if you're going to be outside at all. Choose one that's 30 SPF or higher for good protection from UV rays.

• <u>Do</u> eat a healthy diet. Lots of green vegetables and fruit can help your skin stay fresh and young. Raw tomatoes and fruits can brighten your skin.

<u>Flag Day Trivia</u>

Flag Day is June 14th, when Americans proudly display their patriotism by flying the U.S. flag far and wide. The design of the U.S. flag was originally established by the Second Continental Congress on July 14, 1777. The Flag Resolution stated: "Resolved, that the flag of the United

States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation."

Remember these at your next party

- I just got my doctor's test results and I'm really upset. Turns out I'm not going to be a doctor.
- As I get older, I remember all the people I lost along the way. Maybe my career as a tour guide was not the right choice.
- I visited my friend in his new apartment. He told me to make myself at home, so I threw him out. I hate having visitors.
- My parents raised me as an only child, which really annoyed my sister.
- I threw a boomerang a few years ago. I now live in constant fear.
- I'll never forget my grandfather's last words to me just before he died: "Are you still holding the ladder?"
- My relatives liked to tease me at weddings, saying things like, "You'll be next!" They stopped once I started saying the same to them at funerals.

• I childproofed my house. Somehow they still got in.

First things first

A team of high-powered executives hired a consultant to help them develop a better work-life balance. In the conference room, the consultant set a one-gallon glass jar on the table and filled it with large stones. He asked the team if the jar was full. The executives agreed that the jar was pretty full.

Then he pulled out a bag of smaller pebbles and poured them into the jar. The smaller pebbles fell into the spaces between the large stones. Again he asked, "So, is the jar full?"

The team was more hesitant, but they eventually answered that yes, the jar seemed full now.

Then the consultant pulled out a bag of sand and poured it into the jar. "Now is the jar full?"

A smart woman in the front row raised her hand and said, "No, you can still pour water into the jar."

So the consultant did, filling it to the top.

The woman in the front row said, "I get it. The point is that no matter how busy our schedule is, you can always cram something else in, right?"

The consultant smiled. "Not exactly. My point is that you should put the big items into the jar first. If you don't focus on the big things, like spending time with your family and having a spiritual life, the little things will always seep in and take up all the space." June Crossword

Greenland holds clue to ridges on Jupiter's

<u>moon</u>

Jupiter's moon Europa is covered by ridges that appear in pairs stretching for hundreds of miles over channels of ice, and until recently scientists were puzzled about how they were created. Now, according to the Science News website,

they believe the ridges arose from a process resembling the formation of similar ridges found in Greenland on Earth.

A NASA satellite in 2016 showed the existence of an 800-meter-long double ridge system in Greenland. Astronomers analyzed the Greenland ridges, which are much smaller than those on Europe due to Earth's higher gravity. Radar shows that the Greenland ridges lie on top of a layer of water-filled snow about 10–15 meters deep; meltwater from the surface sinks into the buried snow beneath the ridges of ice.

Scientists theorize that the ridges on Europa have a similar origin, although the lack of meltwater or precipitation on the moon's surface means that the shallow water probably comes from an ocean under the shell of ice that makes up Europa's surface. When water rises through cracks, it collects in thick layers of ice from which the ridges grow.

A NASA probe scheduled to launch in 2024 and arrive at Europa in 2030 will provide more data to confirm the theory.

<u>Three wishes</u>

Three friends were stranded on a deserted island. They found a magic lamp, and inside it was a genie who agreed to grant each friend one wish.

"I want to go home," said the first friend.

"Done," said the genie, and the woman vanished.

"I want to go home, too," said the second friend.

"Done," said the genie, and the man disappeared.

The genie looked at the third friend. "What is your wish?"

"I'm lonely," said the third friend. "I wish my friends were back here."
